An old age home is the place for those old people who do not have a home to live. This place is like a home for them where they get everything for routine living like food, clothes, shelter and medical treatment. It is a shelter home where older people live in a community with other people when they have been abandoned by their families. Even though it is a good home for old age people but it still cannot take the place of a real home where people live happily with their families and spend quality time with them.

On 24th January 2024, the inspection team from Delhi (Project Monitoring Unit) visited Senior Citizen Home. They checked the infrastructures of the Home and also the maintenances of the office.
